

April 1, 2019

DELANCO TOWNSHIP

**2019 BUDGET MESSAGE**

The attached 2019 budget is intended to properly fund all existing Township operations. This budget and tax impact does not include School, County, Fire, Open Space or other taxing entities. There are a number of line item increases as well as offsetting line item decreases in other areas. To maintain and improve levels of service and continue plans for improving roads and equipment, spending plans require significant changes as listed on page 2. The attached spreadsheets and addendum give all the details.

The proposed budget requires Appropriations (exclusive of specific project grants) of \$6,187,818. This is \$349,650 greater than last year. This total is still well below the State mandated Spending Cap.

The Available Surplus from 2018 operations was \$1,547,000, slightly more than the previous year. This budget provides for an Appropriated Surplus of \$900,000, the same as last year, which is less than 60% of the available funds. The goal each year, is to insure there are sufficient reserves for future years' budgets.

However, additional resources are available to offset the appropriations increase and hold down the tax rate. At the request of the Township Committee, the Delanco Sewer Authority, has agreed that their available funds allow them to authorize a contribution to the Township budget of \$50,000 for 2019. Further, the Committee has authorized the use of Deferred School Taxes (see explanation of the source of these funds on p. 3) in the amount of \$200,000 for a one year support to allow the program to repave local roads to re-start. The use of these funds should not be needed for this purpose in the future.

The result is overall Anticipated Revenues of \$838,822 (again exclusive of specific project grants). The attached spreadsheets show a calculation of Non-tax Revenues (combining the Appropriated Surplus, Deferred School Taxes, Contribution from the Sewer Authority and Anticipated Revenues) totaling of \$1,988,822, which is \$237,000 more than last year.

The difference between the proposed Appropriations and the Non-tax Revenues is the Tax Levy which comes out to \$4,198,996. This is an increase of \$112,651 or 2.76% over the previous year but is still below the State mandated Levy Cap.

To get the proposed tax rate for 2019, the Tax Levy is divided by the Assessed Valuation (ratables) of \$397,325,600. That figure increased by a small amount this year due to new construction. The final result of all these calculations is a proposed Local Purpose (Municipal) Tax Rate of \$1.057 per hundred dollars of assessed value, an increase of 2.38 cents or 2.30% greater than the previous year. Consistent with prior years, \$190,000 is used as the average residential assessment, which results in a proposed tax bill for municipal (Township) purposes only, for that average property of \$2,008, an average increase of a little over \$45.

Questions on any of this information can be addressed to any Committee member or the Administrator.

The public hearing is scheduled for Monday, May 6 at 7:00 pm. The Township Committee is looking for reaction and input from the public between now and then. Comments are encouraged at the scheduled public hearing, which may be the last opportunity for such input. This introduced budget can be adopted that evening, with or without amendments.

The key items impacting the spending side of the budget are:

- Continued funding the Police Department for a full force of 12 officers including step increases for recent hires along with the general salary increase for an overall increase of \$74,000.
- In the PW Department one slot still has step increases, one new laborer was added and temporary employees are needed to meet peak needs which requires an overall increase of \$20,000.
- For the second year there is new construction anticipated at two sites - the Stanker and Galleto industrial building (at the former Dietz & Watson site) and the anticipated new housing, known as the Crossings, to be constructed on Coopertown Road adjacent to the rail station. This necessitates more than normal inspection time by our Construction Office (provided for via a shared service agreement with Mt. Holly). Permit fees will be paid by those developers to cover the extra anticipated cost. However, we must maintain the extra of \$30,000 in this line item (normally \$50,000 but budgeted at \$80,000).
- Costs for the Township Engineer to develop bid plans and specifications for State Aid funded road work is added to the Engineering Other Expense line for an additional \$10,000.
- Municipal Court salaries are up \$10,000 to account for the need for additional office time and coverage.
- Shade Tree costs are increased by \$9,000 to provide for the ability to remove more disease prone Ash trees and to support more professional services to help make faster decisions on dealing with tree problems.
- Landfill disposal costs must increase by \$15,000 to account for not just the rate increase but the anticipated additional tonnage disposed from the soon to be occupied Cornerstone workforce housing apartments.
- State mandated pension contributions for Township employees is up \$57,000 this year.
- New Police Department and Public Works equipment purchases, replacement of a damaged Ambulance and Drainage improvements results in the need to borrow \$387,000 which requires cash down payment funds of \$20,000. The budget plans to raise, without borrowing, an additional \$220,000 to fund \$200,000 for additional road work along with adding \$10,000 to supplement project costs for sidewalk/tree conflict areas and another \$10,000 to install a crosswalk light at the Burlington Ave crosswalk at Franklin. The result is a total Capital Improvement fund of \$240,000 compared to \$20,000 in 2018.
- The Reserve for Uncollected Taxes, a required annual appropriation to cover unpaid taxes for all jurisdictions that the Township collects for (Schools, County, Fire District, Open Space) needed an increase of over \$13,000 based on estimates of all entities' tax bills and the history of collection percentages.

Several areas where there were significant reductions:

- Interest due on outstanding Notes is \$9,300 more this year but Interest on Bonds is down \$18,000. It was noted that 2019 is last year for payment of the \$450,000 per year principle for the Municipal Building bond which will have a very positive impact on the 2020 budget, allowing most outstanding Notes to be significantly paid down at that time.
- Last year we had to budget \$50,000 for the cost of demolition of fire ravaged homes on Hickory St. Half was reimbursed by insurance and the balance will be covered when the property sells. In any case, that amount does not need to be budgeted this year.
- Additional budget savings of \$24,000 comes from ending the need to budget this amount each year for the past five years to cover the costs of the 2013 Re-Assessment.
- Stability in rates and changes in coverage for Employee Health Insurance has resulted in the ability to budget \$25,000 less in that line item.
- All operating expense lines for departments and offices have been held to a zero increase as our staff has found a way to operate without the need for more funding this year.

- Continued savings are included from shared service arrangements with Mt. Holly Township for Zoning Officer and Construction Code services. Savings are also generated by long-term sharing with neighboring Public Works departments for equipment, repairs and leaf composting.

Issues on the revenue side are:

- Another year where State Aid remains flat;
- Fees for all items show a slight reduction of \$13,000 compared to the prior year

The Township's financial position remains stable. The hope is that planned and potential development takes place where revenue from taxes and fees exceeds the costs to service the new streets, businesses and residents, to control the local tax levy. Continued careful control over spending is a key to future stability. Delanco is fortunate to have dedicated and talented staff and employees who work every day to ensure this happens.

Deferred School Taxes is a funding source based on an accounting process that was last used in 2014 to support the funding of a full 12 member Police department. This source of funding is available to municipalities like Delanco that collect the taxes levied by the local School District on a calendar basis starting each January but transmit the funds to the School District on a School budget calendar starting each July. Normally, these funds from the "lag" between collection from taxpayers and payment to the School District, are used for cash flow purposes as part of what is called the Unappropriated Surplus.

State law permits the collecting municipality to count one-quarter of the School Tax levy as this revenue to offset local purpose taxes by appropriating it as part of the annual calculation of Appropriated Surplus. Its use has no impact on what the School District receives in property taxes. This Appropriated Surplus is a major portion of the revenue in a municipal budget that offsets appropriations and holds down the Amount to be Raised by Taxation.

For 2019, there is \$3,241,813 available as Deferred School Taxes. A number of years ago, the State required that a minimum of one-fourth of this source of funds be included in all eligible municipal budgets which, in Delanco, resulted in the use of \$998,291 of the available amount. The 2014 budget used \$245,000 more to bring the total used to \$1,243,291. For the 2019 budget, \$200,000 additional is proposed for use resulting in a new total of \$1,443,291 used, which is less than 45% of the available Deferred School Tax.

**ADDENDUM to 2019 Delanco Introduced Budget:**

**#1 – Revenue and Expenditure sheets - 2015 through proposed 2019**

- Shows budgeted and actual for each year
- Includes:
  - proposed tax levy compared to State levy cap
  - calculation of tax rate
  - \$ and % change between 2018 and proposed 2019
  - summary of expenditures in six categories

**#2 - Highlights – Significant Changes in Revenue and Appropriation lines**

**#3 – Analysis of the Basis for the Tax Levy Increase for 2019 compared to 2018**

**#4 – Revenue History by Major Categories – 2015 to proposed 2019**

**#5 – Surplus History 2015 to proposed 2019**

- Includes available, appropriated, regenerated

**#6 - Comparison of Revenue and Appropriation lines in proposed 2019 Budget**

- Largest \$ amount to smallest \$ amount shown as % of budget
- \$ changes from largest to smallest between 2019 & 2018
- % changes from largest to smallest between 2019 & 2018

**#7 – Comparison of Impact of Tax Rate between 2018 and proposed 2019.**
